

Ashton Bentley are proud to appoint Granteq, based in Dubai, as their Distributor for the GCC region.

“Granteq have the commitment and experience to develop markets with communication and collaboration solutions, and are ideal partners for us. We look forward to working with the Granteq team” stated Roger Vinton, founding Partner of Ashton Bentley.

Granteq have an Ashton Bentley Connect I on their Stand TA-101 at Infocomm MEA that is running concurrently with Gitex. The Connect I supplies everything required to provide a complete audio/visual environment for videoconferencing and presentations. In addition to the 55” display, the system includes: audio; control system with intuitive user interface; all cables/connectors/brackets and IP tools for remote management. All components can be assembled in minutes with no tools.

Girish Narayanan, Managing Director of Granteq, first saw Ashton Bentley products at Integrated Systems Europe in February 2013, stated “we are very pleased to be appointed and our team have worked hard to ensure that Ashton Bentley products are represented well at Infocomm and Gitex. In addition once the show closes we will continue to have Ashton Bentley products on display in the region at our showroom in Dubai”.

Ashton Bentley’s also have their own Stand Z-17 in Gitex, where the Media Connect is also on display with a Connect2. The Media Connect has an integrated meeting table, which allows for immersive meetings, presentations and videoconferencing.

End
