ab st11 Shaped Table for 11 (9+2)

Overview

Technology enabled tables that integrate seamlessly with the Ashton Bentley range of display systems.

This combination provides a very easy to use complete collaboration space that is simple to deploy in any room, and very intuitive to use.

Removing the frustration often found with tables covered in cables and other technology.

Shaped table with Single 75" display. Showing integrated table box and cable grommet

Key Features

- Simple and quick to assemble
- Reduce surface clutter with concealed power and connectivity
- Under table connectivity hub (*interface*) for laptops, microphones, network (with POE) and USB. Easily add VoIP phones or Touch Panels with no additional cables
- Cable retractors for laptop inputs. Concealed when not in use
- Choice of laptop connectivity and simple button selection
- Cable management with discreet surface grommets for phones, touch panels and microphones
- Only one CAT6A cable to connect table to the display

Optimised for Video

The Ashton Bentley range of 'shaped' tables have been designed to make sure most people are on camera for video calls. Plus able to view the displays and still engage with others across the table.

Table Options

Cable Access

Small rectangular table box with hinged lid to allow cables (such as laptop and mobile power) to be neatly passed through the table surface to the sockets in the table legs. Reduce table clutter.

Collaborate and Communicate

ab st11 Shaped Table for 11 (9+2)

(W)

What You Get

- Table surface with cable grommets and cut-outs for table boxes
- Standard hard-wearing matt white surface for reduced glare from overhead lights
- Legs with mains power and USB charging, and receptacle for laptop power supply
- Table boxes in table surface with all mechanics and cables concealed within the table legs.
- Adjustable feet for uneven floors
- Cable access into table legs at floor level or from below

Tablebox & Retractors

We simplify the user experience by removing complicated controls and connectivity that often delay meetings. Conveniently located table boxes have cable retractors for laptop inputs, and simple button panel. The table boxes are connected to the concealed interface connectivity hub, which is then linked to the display system via a single network cable. Simple to install.

Connect your laptop and the system turns on automatically. Want to see another laptop, aux input or take a call, then just press a button.

Cables & Hardware

- All inernal cables are supplied
- Retractors for laptop inputs are supplied, with any combination of VGA, HDMI, DisplayPort and MiniDP. USB-C coming soon.
